Amendments to the Specification

Please amend paragraph [0023] of the Specification as follows:

FIG. 2 is another illustration of the wavefront measurement apparatus of the present invention, particularly as it can be incorporated into a photolithographic system. As may be seen in FIG. 2, the source module 103 is placed on the reticle stage, and in one embodiment includes two orthogonally oriented gratings. The wavefront sensor (or sensor module 106) is placed on the wafer stage and includes a 2-D grating 201 and a CCD detector 202 that is positioned below the 2-D grating. The projection optics (PO) 104 remain the same as [[doing]] during normal exposure operation.
